

Eggcellence.
Made in Germany.

Aviary PRO 10

Compact aviary that fits any type of building

Our PRO 10 aviary is the result of our many years of experience in cage-free and organic egg production. The special system egg belts as well as the special nest design with optional automatic nest covers, and the identical equipment on all tiers guarantee easy handling for producers and hens. Its low and compact design also makes the PRO 10 interesting for existing buildings.

Low and compact housing system

Special, animal-friendly nest

Identical features on every tier

Strong and durable design

Excellent results and easy to manage

Aviary PRO 10

*Well-proven and easy to manage
